

K-LOVE is the only Christian Radio Station in the surrounding area as of December 31. The other Christian Radio Station is being bought and will not have the same format. The community and the world need to have this music and "the word" broadcast 24/7. K-Love may be a minority in the "Radio World" but K-Love is reaching a majority of persons who need the encouragement and message. Any age can listen without being bombarded by bad language, as in most songs today; without being given the message "you are a loser" because without certain products your life will be a mess; are you big enough to win over God - I don't think so. . .and so far God has allowed this station to be on.
